

# Health Education Mandates

A Guidance Document for Schools

For more information, please contact your [Regional School Health Coordinator](#)

## Health Education Requirements

Section 1502 of the Revised School Code

"Health and physical education for pupil of both sexes shall be established and provided in all public schools of this state."

See more guidance related to this requirement [here](#).

## CPR Mandate

Public Act 388 of 2016

This law requires CPR and AED instruction for pupils enrolled in grades 7 through 12 beginning in the 2017-2018 school year.

See more guidance related to this requirement [here](#).

## HIV Mandate

Public Act 165 and 166 of 2004

School districts are required to teach about dangerous communicable diseases, including, but not limited to HIV/AIDS and instruction must be offered at least once a year at every building level.

See more guidance related to this requirement [here](#).

## Sex Education Law

Public Act 165 and 166 of 2004

If a school district chooses to teach Sex Education, they must have a Sex Education Advisory Board (SEAB) and must follow all other law related to sex education instruction including parent/ guardian notice and formal board approval.

See more guidance related to this requirement [here](#).
