Governance
-Decision Making
Process

Since the initial school closure in March 2020, the MCISD has shown a commitment to engagement and communication with students, families, and staff. In March 2020, we surveyed families regarding their technology needs and purchased devices for 68 families. Two formal surveys have been submitted to families to solicit feedback regarding remote learning and the closure of school buildings: "Parent Survey" focusing on the strengths and weaknesses of our initial remote learning plan, student and parent training needs, and parent suggestions for the plan; and the "Family Wellness Survey" focusing on the mental health needs of our students and families. The MCISD also solicited feedback from staff regarding summer services that helped to develop our voluntary Summer Enrichment Program for students.

In addition to surveys, staff solicit feedback from families during weekly communication, and summer staff have directly called parents in the ESY, SCI, and Summer Enrichment programs to get their input regarding the 2020/2021 school year.

In June 2020, the MCISD organized a committee of administrators, teachers, ancillary staff, and parents to focus on our Return to School Plan for the upcoming year. This committee has thoroughly reviewed the MDE Return to School Roadmap and has focused on the
